• PROJECT NAME	**Loures Local Safety Contract** (CLS)
• TYPE OF PRACTICE	Citizens' participation
• CITIES AND/OR COMMUNITIES, COUNTRY/IES	Loures (Lisbon, Portugal)
• IMPLEMENTED SINCE…	2008
• BRIEF DESCRIPTION	A new participative practice which aims to encourage residents to work with the CLS team through permanent consultations to anticípate problems and to fight agains juvenile delinquency, petty crime, domestic violence, antisocial behaviour and insecurity.
• PROMOTING OR LEADING ENTITIES	National government and the Loures Municipal Chamber.
• PARTICIPANTS	Local pólice, social agents, neighbourhood associations and institutions and the community as a whole.
• OBJETIVES	Optimise synergies and community cooperation in fighting petty crime, violence, antisocial behaviour and insecurity in general. The Project also aims to create a culture of responsibility in which rights and obligations go hand in hand, improve self-esteem and a sense of belonging to the neighbourhood.
• TARGETS	Local pólice, social agents, neighbourhood associations and institutions and the community as a whole.
• MAIN RESULTS	In the areas where the contract was implemented, 61% of people recognise its utility in reducing criminal activity. 14% of the population (under 70 years of age) having participated in a CLS initiative.
• METHODOLOGY	A contract of involvement and voluntary participation drawn up between public authorities (the State and security forces), civil society agents and citizens. The parties commit to notifying the appropriate service/authority in order to prevent issues from arising.
• EVALUATION INDICATORS / METHOD	
• DEGREE OF SUCCESS (EVALUATION	European Crime Prevention Prise 2010.
