• PROJECT NAME	**REGIONAL SOCIAL INTEGRATION PLAN**
• TYPE OF PRACTICE	Prevention
• CITIES AND/OR COMMUNITIES, COUNTRY/IES	Castilla La Mancha, Spain
• IMPLEMENTED SINCE…	1997
• BRIEF DESCRIPTION	Programmes to teach inmates and former inmates how to live in society following their release. At this time they usually have a lesser capacity for taking decision, lack initiative, have difficulties with time management, lack creativity, have difficulties facing new situations, experience relational problems, etc.
• PROMOTING OR LEADING ENTITIES	Department of Social Welfare
• PARTICIPANTS	- Department of Social Welfare of the Board of Communities of Castilla La Mancha (finances 90% of the programme). - Archbishop of Toledo vie the Pastoral Penitentiary and the Santo Tomé Church (provide housing in the first stages of the intervention). - A.I.E. Social Development (finances 10% of the programme and manages it in its entirety). - Volunteers from the community.
• OBJETIVES	- Facilitate social, work and residential integration of former inmates. - Help reach independence in social and economic terms through the development of personal skills so that the former inmate does not have to rely on anyone else.
• TARGETS	Inmates and former inmates.
• MAIN RESULTS	
• METHODOLOGY	Systematic model – “José Rivera” Social integration centres for inmates and former inmates. • Everything is done through team work: decisions on individual and group projects, sanctions and exceptional actions... The team comes together regularly to carry out the

	work properly and to review each individuals itinerary and what went on during the past week. • Each professional will implement the decisions taken by the Technical Team according to their area of work. Social workers also collect proposals and recommendations from participants and share them during the team meetings. Each 'resident' will have an allocated social worker who will accompany them in their reintegration.
• **EVALUATION INDICATORS / METHOD**	**Self evaluation meetings**: each week. The aim is to go through the past week and take notes of highlights. Residents' suggestions are also taken into account. Social workers and residents attend the meeting. **Team meetings**: Every other week. All technical team members must attend. Residents' individual progress is discussed as well as the futioning of the centre. The main aim is to evaluate individual projects presented by each resident's allocated social worker, and to establish positive changes in the system as well as set goals. **Group programmes**: Each group programme has its own evaluation system, the professional will share his or her evaluation with the group during these sessions. **General coordination meetings**: every month. All team members participate. Roles, times, steps and the team's functioning are all discussed. Possible changes are put on the table with regards to the programmes evolution and methodology.
